

Technical Seminar on Renewable Energy Applications

29 November 2018 (Thursday) 7:00 pm - 8:30 pm
Jockey Club Lecture Theatre,
IVE (Morrison Hill), 6 Oi Kwan Road, Wan Chai

To develop a greener Hong Kong, the HK Electric recently introduced the **Feed-in Tariff (FIT) scheme** through the grid-connected renewable energy power systems. Representative from the HK Electric will explain to us the eligibility, application flow and requirements of joining the FIT scheme. Other than that, responses will also be given to some general engineering considerations, in particular the requirements on customer account and metering. They will also introduce the treatment of environmental attributes of the Renewable Energy sold under FIT Scheme and the implications to ESG reporting and green building certification. To further encourage the use of renewable energy and promote energy efficiency and conservation (EE&C), the **Renewable Energy Certificates and Funding Schemes** under HK Electric's Smart Power Services will also be introduced.

Representatives from the Electrical and Mechanical Services Department will then introduce the **Technical Guidelines on Grid Connection of Renewable Energy Power Systems** and **Guidance for Solar Photovoltaic System Installation**. The regulatory requirements on generating facilities will also be covered.

Speakers

Ir CHUNG Kwai Hon
Senior Building Services Engineer,
Electrical and Mechanical Services Department

Mr MO Chi Wang
Engineer,
Electrical and Mechanical Services Department

Ir LEUNG Wai Kin
Head of Customer Business Development,
HK Electric

Programme

6:45 pm – 7:00 pm Registration
7:00 pm – 7:45 pm Presentation by EMSD
7:45 pm – 8:30 pm Presentation by HKElectric

Registration

Deadline: 28 Nov 2018 (Wed) or Full Capacity
Website:
<https://www.hkgbc.org.hk/eng/events/20181129-CPD.aspx>

Fee

\$120 (HKGBC Members)
\$180 (Non-HKGBC Members)

CPD Hour

1.5 CPD hours will be automatically uploaded to attendees' BEAM Pro/BEAM Affiliate Individual Accounts.
